PRACTICAL GUIDE

Procida

Your private boat excursion · A guide to planning the day

Set out aboard our NINJA boats on a private excursion to Procida with your own crew. Discover the island from the water, make a harbour the focus of your visit and leave room for a swim or a leisurely lunch.

01

Marina della Corricella

Procida's layered waterfront is a beautiful sight from the sea. Ask about a stop for a walk or lunch, with landing arrangements confirmed for your chosen boat.

02

Marina di Chiaiolella

A smaller harbour with a relaxed seaside atmosphere. This side of Procida offers coastal scenery, restaurants and views towards Ischia and Vivara.

PLAN YOUR DAY

Plan your day

03

Marina Grande

The island's main harbour is lined with colourful buildings, cafés and local shops. It provides a useful starting point for an introduction to Procida on foot.

04

Start with your departure

Ischia, Naples, Capri or another agreed port. We recommend a route and boarding point that fit your accommodation and the time available. Half-day and full-day plans can be considered. A nearby departure leaves more time for the island than a longer crossing from the coast.

What to send us

- ☐ What date would you like, and how many adults and children are travelling?
- ☐ Where are you staying, and where would you like to board?
- ☐ What time must you be back, and do you have an onward connection?
- ☐ Would you prefer swimming, time ashore or a restaurant stop?
- ☐ Which harbour would you most like to see: Corricella, Chiaiolella or Marina Grande?

These are itinerary ideas, not a fixed programme. The final route depends on the boat, departure port, available time, sea conditions and permitted access. Your proposal confirms inclusions and any separate costs, including fuel, landing fees, meals, tickets and road transfers.
